

## REMARKS

Applicant has amended the drawing of Figure 18 and the specification to remove ambiguities caused by the use of each of characters 120 and 122 for multiple components. As amended, reference number 120 identifies the wheel locks shown in Figure 2, reference number 121 identifies the lift mechanism shown in Figure 18, and reference number 122 identifies motor 122 (also shown in Figure 18). Applicant believes that these amendments remove all ambiguities and place claim 5 in condition for allowance; consequently, he respectfully requests reconsideration of the application in view of such amendments.

Respectfully submitted,
